Certificate of Testing

PERTUSSIS TOXIN from *Bordetella pertussis*, Lyophilized in Buffer

Prod. No: 180 Lot Number: 180245A1

Date of Manufacture 20 October 2023

FOR RESEARCH PURPOSES ONLY. NOT FOR HUMAN USE.

Contents

Each container holds 50 µg of lyophilized pertussis toxin (PT) from *Bordetella pertussis* in 0.01 M sodium phosphate, 0.05 M sodium chloride, pH 7.0 when reconstituted with 0.5 mL water. **Do not sterile filter, as this will result in loss of material. Handle the product gently. Do not vortex.**

Storage/Shipping Requirements

Store at 5 ± 3 °C. This product is provided as an aseptically packaged lyophilized powder, sealed under vacuum. Ship material at ambient temperature.

Handling

Good laboratory technique should be employed in the safe handling of this product. Wear appropriate laboratory attire including a lab coat, gloves and safety glasses.

The product is intended for research purposes by qualified personnel. It is not intended for use in humans or as a diagnostic agent. List Biological Laboratories, Inc. is not liable for any damages resulting from the misuse or handling of this product.

| Attribute | Test Method ID/Version | Results |
|------------|-------------------------------------|---|
| Appearance | Physical Appearance / ASSAY.063 v05 | Before reconstitution: uniform white powder After reconstitution: uniform suspension, particulate free |
| Purity | SDS-PAGE / GELS.018 v18 | Non-Reduced: 5 distinct bands with 99% purity Reduced: 5 distinct bands with 97% purity |
| | Endotoxin / ASSAY.092 v06 | 574 EU/mg |
| Activity | CHO Cell Assay / ASSAY.141 v01 | Lowest concentration of toxin at which a positive response was obtained: 0.001 ng/mL |

NOTE: Toxicity may vary by lot of toxin. Each laboratory should determine the optimum dosage for each lot in a particular application.

Activation

Please note that this product is not activated. If your system requires activation, see Kaslow, H.R., Lim, L.K., Moss, J. and Lesikar, D.D. (1987) *Biochem.* 26, 123 -127.
